## PROJECTS

### XharkTank-Application (backend project) | Source code
**mongodb, express, nodejs, mongoose**

📅 12/2022 – Present

- I made this project during **PhonePe Tech Scholars Program-2022**
- This is **backend project** where **entrepreneurs post pitches**, it includes their **business ideas**, **pitchTitle**, **amount** they want from investors and **equity** and investors are allowed to post **offer** to a particular pitch if they like their ideas.
- **Data stores in chronological orde**r so that investors would be **able to see the latest pitch first**.

### Snake Game | Source code | Live
**html, css, js**

📅 06/2022 - Present

- Create a Snake game where **snake grows in size** while eating a fruit and **makes a sound** when it eats or collides with the wall.
- Implemented a **high score system** using Local Storage.
- Added **an alert that prompts the user to restart** the game when the snake collides with the wall.

### Analog Clock | Source code | Live
**html, css, js**

📅 05/2022 – Present

- Created an analog clock which displays the **current time** and can be customized with different styles

## ACHIEVEMENTS

- Out of 30 teams participated in **SprintHacks2023** our team comes under **top 5**
- **350+** questions on GeeksForGeeks
- **5 star** in C++ on Hackerrank
- **Gold** in Thug of War
- **Gold** Silver in Mix-cricket

## PARTICIPATION

- Participated in **PhonePe Tech Scholars Program-2022** powered by Crio.Do
- Participated in **SprintHacks 2023** hackathon organized at KIET Ghaziabad

## EDUCATION

**B.Tech in(CSE)**
**Institute of Engineering and Rural Tehnology, Prayagraj**

📅 2023                     Per : 83%
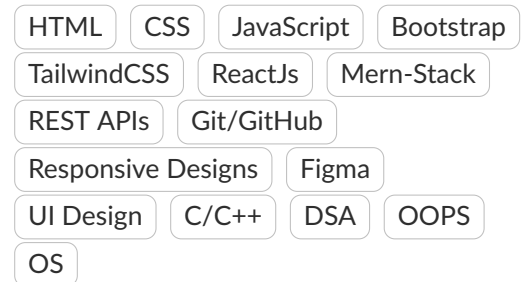

**Class XII**
**St. Peter Inter College, Nanpara**

📅 2018                     Per : 81%

**Class X**
**St. Peter Inter College, Nanpara**

📅 2016                     Per : 84%

## SKILLS

HTML | CSS | JavaScript | Bootstrap | TailwindCSS | ReactJs | Mern-Stack | REST APIs | Git/GitHub | Responsive Designs | Figma | UI Design | C/C++ | DSA | OOPS | OS
